

ASWAJITH PP

SOFTWARE TESTER

aswajithpp45@gmail.com | +91 8075538471 | LinkedIn | <https://github.com/Aswajith2255> | Kozhikode Kerala, India

PROFESSIONAL SUMMARY

BCA graduate specializing in Manual Testing and Quality Assurance, with a strong foundation in software testing methodologies and quality processes. Knowledgeable in SDLC and STLC, test scenario creation, test case design and execution, defect reporting and tracking, and functional, smoke, and regression testing. Familiar with web application testing and basic SQL for backend data validation. Strong analytical and problem-solving skills with attention to detail and a methodical approach to identifying, documenting, and tracking software defects. Seeking an entry-level Software Tester/QA role to contribute to delivering reliable, high-quality software.

Technical Skills

- **Manual Testing:** Manual Testing, SDLC, STLC
- **Test Documentation:** Test Scenario Creation, Test Case Design, Defect Reporting
- **Database:** SQL Basics

PROJECTS

COFFEE CART - WEB APPLICATION TESTING

Manual testing project focused on validating the functionality, usability, and user interface of an e-commerce web application.

- Designed and executed 100+ manual test cases covering Homepage, Menu, Cart, Popup, and Payment modules.
- Performed functional, UI, validation, usability, positive, and negative testing.
- Identified and documented 30 defects with Severity, Priority, Expected & Actual Results.
- Prepared detailed test cases and defect reports and tracked execution status.
- Tested form validation, cart calculations, popups, payment, and UI functionality.
- Tested on Windows 11 and Chrome.

SKINLESIONCLASSIFICATION USING MACHINE LEARNING

A dynamic machine learning web application developed to categorize dermoscopic images of skin lesions into distinct medical classes.

- Developed a machine learning web application to classify dermoscopic skin lesion images into seven categories.
- Built the frontend using React.js and the backend using Python Django, integrating a machine learning model for image analysis and prediction.
- Implemented an image upload feature that allows users to submit dermoscopic skin lesion images for classification and prediction.
- Designed a responsive user interface to provide a simple and user-friendly experience across different devices.
- Performed manual testing to verify application functionality, validate features, and identify defects.

WEATHER APPLICATION

An interactive web app displaying real-time global weather data based on geographic searches.

- Developed a responsive weather application using React.js, HTML, CSS, JavaScript, and Weather API integration.
- Implemented city-based search to display real-time weather details, including temperature, humidity, wind speed, atmospheric pressure, and weather conditions.
- Integrated the Weather API to retrieve and display current weather information based on user searches.
- Designed a responsive interface for usability across different screen sizes.

EDUCATION

Bachelor of Computer Applications (BCA) | Vidya Vikas First Grade College Mysore | Mysore, India | 2023 - 2026

Higher Secondary Education | Perambra Higher Secondary School | Kerala, India | 2021 - 2023

Secondary Education | Memunda High School | Kerala, India | 2021

CERTIFICATIONS

- Cisco Certified Support Technician in Cybersecurity
- Microsoft Azure AI Fundamentals Certification
